

## THE LAW FIRM FOR MEDICAL PROFESSIONALS

DR Solicitors are a specialist Solicitors Practice working exclusively with NHS GP Practices throughout England and Wales. We were established in 2003 and have developed a client base of over 600 practices throughout the country.

As we only work with NHS GPs, all of our Solicitors are thoroughly versed in the legal complexities associated with this sector and we do not employ 'generalists' or take on trainee Solicitors. We are proud that all our lawyers have qualified with top tier firms, and have on average well over 15 years PQE.

Our deep industry expertise and reputation for outstanding client service has generated a level of recognition unusual for a firm of our size. DR Solicitors' principal Daphne Robertson is 'top ranked' by the prestigious Chambers Legal Publication and described as a 'genuine expert in the medical field'. Also, we have again in 2012 been shortlisted as a finalist in the Health Investor Awards as 'Healthcare Legal Advisers of the Year'.

Our expertise is associated with all areas of law required to run a modern professional GP Practice. A selection of our recent work includes:

- Partnership Deed Drafting (GMS, PMS & APMS)
- Partner admissions and retirements (including 24 hour retirement)
- Partnership Dispute resolution
- Practice acquisition and disposals
- Arbitration hearings
