

At last.....

Someone who can help you with your Subject Access Requests
and all the horrible photo-copying.

Here at Scan and Collate we offer a service to both primary and secondary care sectors, whereby we visit your premises on a regular scheduled basis, we bring our own equipment (scanner and laptop) and scan in any records you need copying for solicitors, police, patient, courts etc, add your computer records to the scanned images and encrypt the file, so it is secure. We burn this to a C.D. for you, so all you have to post out is a C.D. containing the patient copy record, which is encrypted and safe to go through the postal system but also at a fraction of the cost of posting out the copy paper records.

We have been providing this service since 2007 and it is proved to be a cost effective, robust, secure and seamless solution to the current method of photo copying and posting out unsecure chunks of paper. As a member of the Bedfordshire and Hertfordshire LMC, you will also be entitled to a discount against our standard charge as well as a 2 month free trial period with no obligation.

If you would like to know more or would like a no obligation visit to explain in detail how this works and all the benefits then please contact;

Paul Rixon - Director
